Subject: Bayou Land Conservancy appoints Ken Fatur to Board of Directors

Houston, TX – Bayou Land Conservancy (BLC), a local land trust focused on conserving land and protecting Houston’s primary water source, Lake Houston, announced that Ken Fatur was appointed to the board of directors at the organization’s August board meeting.

Mr. Fatur, a graduate of Penn State University and the University of Pittsburgh Katz Graduate School of Business, is Managing Director in J.P. Morgan’s Energy Group. Says BLC Board Chair Lisa Lin, "We are thrilled to welcome Ken Fatur to the BLC board of directors. His extensive experience in the finance industry will bring a fresh perspective to board governance, and his love of the outdoors and desire to give back to the community will help us advance BLC's mission. I hope our members will get a chance to meet Ken at a future event or run into him out on the nature trail."

Mr. Fatur has spent 25 years as part of the Houston office of J.P. Morgan, but permanently relocated from Chicago in 2019. Said Mr. Fatur about his appointment to the board, "I’m thrilled to become part of BLC, an organization that perfectly aligns my love of the outdoors with a way to give back to the community, not only today but for future generations to come."

About Bayou Land Conservancy: Bayou Land Conservancy is a community-sponsored land preservation organization working to permanently protect land in the Houston region since 1996. Bayou Land Conservancy preserves land along streams for flood control, clean water and wildlife. We envision a protected network of green spaces that connect people to nature.
